5 per cent for the first six months of
private operation after the roads were
returned to the owners, would soon
bring suit for \$84,000,000 damages.
The inference was also left that other
roads would do likewise.

"CO-OP" CIGARETS

KENTUCKY TOBACCO GROWERS
PLAN TO MAKE THEM
(Newspaper Enterprise Association.)
LEXINGTON, Ky., Jan. 13.—Ker-
nedy tobacco growers are planning to
put "co-op cigarettes" on the mar-
ket.
They predict these cigarettes will
break the high prices.
The co-operative factory idea fol-
lows the collapse of the huge leaf
market.
One pound of Kentucky tobacco
smokes 500 cigarettes.

"Then now will for one cent or more
each."
Manufacturers offer tobacco grow-
ers 25 cents a pound.
Growers say this means the cigar
makers get \$5.50 for what costs them
25 cents plus cost of manufacture.
"Is that fair?" ask the growers.
For answer they take their tobacco
back to the factory.

The present crop cost \$300 an acre
to raise. The price offered averages
\$750.
A similar situation existed 12 years
ago. Some growers sold at market
prices. Night riders went through the
country, burning buildings of self-
ish growers.
"We're going to win this time on
straight business methods," say the
growers.

TO TAKE GENERAL CENSUS OF FRANCE ON SIXTH OF MARCH

(International News Service.)
PARIS, Jan. 13.—On the 6th of
March next a general census of the
population of France is to be held. All
persons who in the night of the 6th-
7th are residing in France and irre-
spective of nationality will be called
upon to fill in a registration form.
The registration forms will ask: 1.
Name and Christian name. 2. Sex.
3. Age. 4. Profession. 5. Nationality.
The head of a family will then have
to recapitulate the names and na-
tionality, etc., of all persons who lived
in his house or flat during that night.
In that way it is hoped not only to
have figures as to population but also
to be able to trace all those who have
so far escaped paying taxes of all de-
scriptions of which there are now
thousands in France.

The last census taken in France was
in 1911 and showed that at that time
there were 45,165,357 inhabitants in
France and in Algeria. One million
one hundred thousand foreigners re-
sided in the next census and de-
spite war losses the figures are ex-
pected to be much higher by the re-
turn of Alsace Lorraine to France,
whereas the number of foreigners are
expected to be in excess of former
figures due largely to the anticipated
number of tourists.

THE DISHPAN OR THE JURY BOX

Many states have tried women on juries with uniformly good results. The "mixed" jury has come in for less criticism after the verdict than has the average all-man jury. Apparently the woman juror is making good. But is jury service as beneficial to woman? Her effect upon juries has been fine; but how about the jury effect upon women?

"It is my thought that women should be free from jury service," said Judge Alfred J. Talley, of New York, ordering the sheriff of America's populous county to omit women from jury panels.

Tut! Tut! Be not so hasty in the formation of your rejoinder! It isn't that Judge Talley is opposed to woman suffrage that he so ruthlessly, for the judge lives in a suffrage city, a suffrage county, a suffrage state, and a suffrage nation. He has another reason. Trust a judge to dig up a good reason.

"Women should be exempted," said Judge Talley, "because the work which the laws of nature have designed for performance by women is of paramount importance to any service which they might be called upon to perform on a jury. It is part of a divine plan that woman is destined and qualified for the bearing of the children of the race, and for the creation and guardianship of the homes of the world and of their maintenance in love and honor."

Thus Judge Talley, with one motion of his judicial law wipes the woman juror out of existence—in his court room.

In her earlier married days woman must teach baby to walk, talk and keep out of the pantry cookie jar. Other judges, too, have ruled that women may be excused from jury duty when there are little children in the home needing a mother's care. There is no doubting the wisdom of such a decision and least of all, would any woman find fault with it.

But there are days and many of them, later on in a woman's married life, when children are not tied to her apron strings. Usually at this period woman is as free as man for jury service; she has her business, housework and he has his business, counting money or laying bricks, or some other equally necessary vocation.

Judge Talley, however, rules that maintaining a home is of such vital importance to the human race that women must be excluded from juries so that no dish may go unwashed and no floor unwept.

The dishpan is of tremendously greater importance than the jury box according to Judge Talley.

It were better, he intimates, that man be yanked from his work of producing food and getting it into the home than that women should be taken from her fryin-pan.

The father who provides the heat, light, food, clothing and house may be spared from his job, any day, to sit on a jury, but the mother who darts the socks, polishes the cutglass,

and arranges daughter's social campaign, must be "protected against herself," so says Judge Talley.

He does admit, though, that "some women would make better jurors than some men." Everybody else admits that it would do mother a lot of good to swap the duty of "guarding and maintaining the home in love and honor," as Judge Talley suggests, for a few days' change on a jury.

No home would be wholly wrecked if father had to wrestle with the dishpan a few evenings mother was enjoying a jury vacation from household work.

COMMUNICATIONS

Editor Daily News:—

It is a great asset for these Triple Cities that Dr. Russell H. Conwell has been secured to lecture in Daytona. He is far and away the greatest lecturer in the world; he is the greatest lecturer who has ever been in the world in all history. He has lectured a greater number of times than any other man who has ever addressed audiences. He is announced to speak in the Congregational church in Daytona under the auspices of the Baptist church, Rev. H. S. Rightmire, pastor. He will give his greatest lecture entitled "Acres of Diamonds." This lecture instructs, inspires and creates new life for thousands of young men and women. It also convulses audiences at times with uncontrolled laughter. The lecture has been given over 5000 times. The box receipts if put at 5 per cent interest would now amount to over \$4,000,000. This sum Dr. Conwell has given for the education of young people who otherwise must go without an education. No one ought to miss hearing a man who is at the head of the greatest institutional church in the world. Although now in his 78th year, he has all the vigor of a man of forty. The lecture comes on the night of the historical pageant, the 21st of January, but as the pageant is to be repeated, all may have the opportunity of hearing this most wonderful lecturer in the whole world.

Sincerely yours,
Robert Stuart MacArthur.

NEW YORK, Jan. 14.—Benny Leonard, lightweight champion, and Richie Mitchell, Milwaukee, contender, fight 15 rounds in Madison Square Garden tonight for "Devastated France" and \$50,000.

In addition to furnishing an interesting skirmish for the leadership of the lightweight class, the bout will mark the debut of the first American woman promoter.

Miss Anne Tracy Morgan, daughter of the late J. Pierpont Morgan, leader in social and philanthropic work, signed the boxers, secured free of charge the arena from Tex Rickard and offered the purse of \$50,000, of which Leonard's share will be \$40,000 and Mitchell's 20,000.

By auctioning boxes and ringside seats to the elite of New York's "Four Hundred" for fancy prices, Miss Morgan hopes to make \$50,000 for the war sufferers of France.

The boxers, it is said, "may" contribute part of their share of the purse money to the fund.

From a technical viewpoint, the fight promises to be interesting. Leonard is the favorite to render fruitless the second onslaught that the Milwaukee boy has made against him.

In their previous meeting in 1917, Leonard knocked him out in the seventh round.

Mitchell was only a youngster then and practically a novice against a master. In the past three years he has come forward through the lightweight ranks with a rush, and today he stands about the best of the contenders, at least he is the most courageous, as Jackson, Tandler and the other leaders can't be coaxed into the ring with the champion.

While there are few in New York bold enough to think that Mitchell will win the championship tonight, there is a general belief that the champion will have a real fight on his hands.

Mitchell is one of the craftiest boxers in the division and he packs a good punch.

Forced by the agreement to make 135 pounds Leonard will not be at his best as he showed in his bout with Joe Welling. He can make the weight he has shown conclusively but he is not strong at that poundage and lacks a lot of his steam and energy.

The champion has also been sick, being forced to spend the holidays in bed with an attack of tonsillitis. He has trained conscientiously however, and reports that he is in first class condition.

Charley White, the Chicago battler, who has been claiming that the gates of New York are closed to him, probably will be at the ringside to challenge the winner.

dinates have allowed a negro prize fighter Johnson, to be made a hero in a Federal prison. "Entertaining" the convicts with his boxing exhibitions and sending them from prison convinced that the United States itself admires the half civilized brute that can knock another unconscious.

There is a movement in Germany "to destroy the republic and restore government by the Hohenzollern party." Those that know little think this "a very serious menace for Germany." A similar organization seeking to bring back some of the assorted French "divine rights" has been an excellent thing for France. The feeble menace of extinct royalty, not powerful enough to do any harm, is sufficiently powerful to make republicans work together and remember what they have escaped.

More cutting of wages 22 1-2 per cent by the great woolen company employing tens of thousands of men, 20 per cent in iron works and so on. The public for the time has stopped buying.

Lower and lower prices are offered as halt, and the wage cuts probably will go on. They are not as bad as actual lack of work, constantly becoming more acute. One of the ablest and best known financiers in the United States said a few days ago, "We shall have bread lines and bread riots and something will be done, too late, as usual."

It ought not to be and it may not be done too late. Mr. Harding's message forbidding all expenditure in connection with his inauguration is hard on the city of Washington, where business men need the great crowds that a "big" inauguration would bring.

Senator Harding's decision shows his appreciation of the fact that millions of Americans wonder how they will take their families through the winter.

Under such circumstances he is not willing to spend a dollar of the public's money if the dollar can be saved.

This means that the next president is dealing now with the important problem of the day. It means also, perhaps, that he will discourage the use of battleships as private yachts, perhaps even the firing and wasting of a hundred dollars worth of powder every time there is any possible excuse for making a noise, as when an admiral's hat appears or a president's "yacht" steams by.

Help the home store to a sale, buy at home!
Every dollar sent away means a dollar lost to day.
What is owed right here today, buy at home!
Are you for your town or not? Buy at home!

Official of Goss Printing Plant Is Beach Guest

O. C. Peters of the Goss Printing Press Manufacturing company is one of the late arrivals at the Daytona Beach hotel. He reports work as very busy in their factory and says they have plenty of future orders awaiting them. When asked about the improvements and changes that has come to the printing press business recently, Mr. Peters said:

"There have not been so many new inventions of parts as there have been changes in the assembling and the making new uses of old parts. Along these lines the development has been marvelous. For instance, we recently completed for the Chicago Tribune one which in size is a monster and in accomplishment a wonder. This press is just 250 feet long and the size of the room necessary to accommodate it can be imagined. It does the work of seven presses in use before it was installed and they were regarded as No. 1 and modern machines. It has only one deck and it takes the place of 25 decks of other presses. The electrical equipment for the press alone cost upward of a quarter of a million dollars. Daily there are printed with this press five 24 page sections of the paper per hour, or what would be equal to two hundred thousand and twenty-four page papers per hour, or forty thousand one hundred and twenty page papers per hour. On Sundays this press prints seven sections instead of five. It now does all the newspaper printing for the Tribune, except the color and photo work, which is all done in another building and with special presses. Running in conjunction with this press and as a part of it are seven folders. Right here alone there has been a remarkable change and improvement in the way of assembling. It was a great problem to provide a folding apparatus to keep up with the wonderful speed to the latest made press. This has now been accomplished. Another unusual improvement is the handling of the paper on this press. Three mammoth rollers are run under the machine at a time, and the equipment has been so perfected that it is not necessary to stop the press to connect roll after roll. This enables a continuous run, and unless something else happens the entire edition can be run off without a stop. Newspaper publishers know this is something unusual and a very important item as a time saver."

Mr. Peters is here for a rest, and he says he is simply charmed with this wonderful beach and ideal climate.

VISITORS FROM ALFALFA COUNTRY ENJOY BEACH

Mr. and Mrs. George H. Bowles of Cherokee, Okla., arrived here yesterday from Orlando, where they have been for six weeks. They are temporarily located at the Ohio House.

Mr. Bowles has large business interests in Alfalfa county, of which his home town is the county seat. This county is widely known throughout the country for the large amount and fine quality of alfalfa grown there. In fact, it is one of the very rich counties agriculturally in the United States. Mr. Bowles says that when he left home business conditions were in line shape there, but that he is just now in receipt of mail from some of the leading men of his town saying that money is tightening up there and that things are looking badly. "You see we have a wheat country and rely upon that crop to a large extent," said Mr. Bowles, "and the fact that the price of wheat there is only about half what it was when it was harvested it has cast a gloom over all our farming interests. I hear many business places have closed down and that in some parts of the state some banks have been obliged to close their doors. Though nothing like this has happened in our town. One of the causes of our depression is the enormous freight rates charged for the moving of our crops. However we have a mighty rich country, and in spite of every obstacle, year in and year out, our people are doing well and making money. You certainly have a delightful summer climate here and your beach is simply wonderful."

PENINSULA LOCALS

Mrs. Addie Allen of Elmira, N. Y., is here for the winter and is at 100 Orange street.

Mr. and Mrs. E. C. Pratt of Me-shoppen, Pa., are here for the winter and are located at 100 Orange street.

Mr. and Mrs. George Drummond of Prophetown, Ill., are here and have quarters in the Miller apartments.

Mr. and Mrs. W. J. Pratt of Holly, Colo., are here for the season and are pleasantly located at 100 Orange street.

Mr. and Mrs. William Fender and Miss Rosetta Harger of Spencer, Ind., have arrived for the season and have secured apartments at the Riverview on Main street.

Mr. and Mrs. H. C. Stowell of Rochester, N. Y., have been the welcome guests of Mr. and Mrs. A. W. Evans of 510 Goodall avenue. They are en route for Miami.

Through the L. H. Springer Real Estate agency, J. W. Bunker has sold his pleasant home at 144 Halifax avenue, near Earl street, to E. A. Bullock of New Hampshire. Mr. Bullock expects to further improve the property very materially.

About one hundred fine new safety deposit drawers have been added to the safety vault equipment of the East Coast State bank. The business of this splendid institution is growing rapidly and many people have been waiting for safety drawers. Cashier Randall is very glad he is now able to accommodate them.

Haines Cox, the 11 year old stepson of Mr. and Mrs. Gilbert Parent, who was seriously injured by being run over by an automobile some days ago, is very much improved. He is so much better that he was removed from the Klock hospital today to the home of Mr. and Mrs. Parent in Daytona Beach. His broken leg is now giving him the most trouble, but it is mending rapidly.

Attorney H. A. Horn is back from a trip to Umatilla, where he went on legal business. He was accompanied by Miss Rachel Weems, his client, who has purchased a home there from Mrs. Mary A. Woodward. Miss Weems bought a pleasant place right in the center of the little town and an extra lot with it.

J. L. Brennan of Harbor Beach, Mich., with his estimable wife, are pleasantly located at 226 Peninsula drive for the winter. At home Mr. Brennan is the city banker and he says that Michigan had good crops this year and that but for the lower prices for farm products now prevailing this would have been a very prosperous year. As it is, he says no one in his section are suffering.

Wants Information on Disposition of G. Haines Fund

President Guy G. Bailey of the Daytona Beach-Seabreeze Chamber of Commerce still has in his possession a balance of \$19.60 of the funds subscribed by the people of the community for the funeral expenses of the late Grady Haines.

Mr. Bailey paid Baggett & Wetherby over \$90 and has satisfied other bills. He does not know just what should be done with this balance, but if it is the desire of those who subscribed it that it be used to purchase a little marker for the boy's resting place, he will be willing to look after the matter. Mr. Bailey has already given his full share to the responsibilities of this case, but he is a public spirited citizen right and never tired of helping the folks. He would like to have some expression regarding this matter.

FINDS CLIMATE HERE PREFERABLE TO PACIFIC

Dr. H. A. Woltor of Green Bay, Wis., who is at the Breakers, says he likes it better here every day. He spent two or three winters in California and is well acquainted about Los Angeles and Pasadena, and he says the climate there between 10 o'clock in the morning and 4 o'clock in the afternoon is balmy but very damp and cold if not rainy the rest of the time. As an all day climate the doctor says it does not compare with the climate here. "I just love this beach," said the doctor, "and I spend most of my time close to it. I have visited many resorts, but this, so far as natural advantages are concerned, suits me better than any other I have seen. While I am away from home I propose to spend as much time as possible close to the beach. The air from the sea makes me feel strong and vigorous. It is certainly some 'pop giver.'"

EVERY TOURIST SHOULD REGISTER AT THE BEACH

Every day many people are calling at the "Tourist" headquarters in the Dixie hotel lobby and acquiring of Mrs. A. M. Griffith, the secretary, as to the location of certain friends who are here from their state.

As a matter of fact, only a very small proportion of the visitors to the headquarters, which is very necessary if they expect or desire to get in touch with other people from their state.

Not only this, but people from different states call to learn the location of their friends who may be here from other states. Mrs. Griffith is always glad to give such information she may have, but she has no way of knowing the local location of any person except they call at the club and register. As she requires each person to register their home address and as well their street and number here, she has the necessary information as to all people who have registered. It will be a great convenience to all concerned to register early.

Director J. L. McBrigg of the National Bureau of Education, Washington, D. C., and who is to be the leading spirit of the National Educational Conference to be held at the Auditorium next week, and who is the author and director of the patriotic pageant, "The Patriot of Mount Vernon," arrived last night and is a guest at the Seaside Inn. This afternoon he is meeting all of those who are to constitute the Continental Congress feature of the pageant. He has been cordially received by the Auditorium management and others who have been privileged to meet him.

Mrs. A. A. Addler of Chicago is here for the season and is located at 115 Halifax avenue.

Mr. and Mrs. Nelson Cook are here from Nicholasville, Ky., and are looking for permanent quarters.

Mrs. Jessie M. Coleman of Paducah, Ky., has arrived for the winter and is a guest of the Seaside Inn.

Mr. and Mrs. E. H. Dickerman of Rockford, Ill., are here for the balance of the season and are located at the Mott apartments on Peninsula drive.

George W. Ross and wife of Corning, N. Y., and Harry E. Green of Scranton, Pa., are here for the season and are located at 115 Halifax avenue.

I. H. Springer, the real estate man, reports that it did not take a little "For Sale" ad in the Daily News but a very short time to make a sale of a residence property for him. He is well satisfied with his investment.

Mr. and Mrs. A. C. Filer, Miss Dorothy Filer and Miss Tibbie Lambert of Liberty, Ind., are here for the season and are comfortably located at 356 Ocean avenue. Mrs. Filer is anxious for the Indiana folks here to form a state organization. She says there is no reason why that state should not have as large and strong a club as any state representing here.

J. D. Shanks, a business man from Orange, N. J., dropped in the Dixie hotel for a few days yesterday. He says that financial conditions are much better in this part of the South just now than in any other section he has visited. He reports millions of men out of work in the North and that everyone up there is expecting the new Harding administration to straighten everything out. He thinks this will be some job.

Thomas J. Davies of Akron, Ohio, who has been here for some days and who is negotiating with F. M. Williams of the Florida Realty company for certain Daytona Beach properties, is very much interested in the future of this city. He was as much impressed with the opinions of F. L. Ferguson, as expressed in an interview in the News, that he went to the office of the paper this morning and got ten extra copies containing this interview to send to friends of his back home, who have money to invest. Mr. Davies has developed into a real beach boomer.

Scene of "The Love Light" Is Laid in an Italian Village

Mary Pickford's very latest picture, "The Love Light," will be shown at the Auditorium Saturday evening, January 15. Briefly the story is as follows:

Angela Carloti presides over the house of her two orphaned brothers, Antonio and Mario, in a little fishing village bordering on the Mediterranean in northern Italy. Antonio and Mario spend their days fishing off the lighthouse, Angela caring for the little stone house, the barnyard and garden. They are all young, and boylike, the brothers slip as much of the work as possible upon the apparently tireless shoulders of Angela. They have only to remark that a certain job is too hard for any woman and Angela does it at it and labors along while they recline in the shade, audibly marveling at her strength and cleverness.

Angela is being courted by Giovanni Novelli, who is held in contempt by the father folk because instead of handling the nets and row boats, he raises flowers for the perfume market of Genoa. In time Antonio joins the army of his country and a little later Mario also enlists. Giovanni is still at home and Angela voices her contentment at his apparent lack of patriotism; this decides for Giovanni that he should go, and he returns blinded. During his absence Angela cares for his garden and also takes the lighthouse keeper's place. One day Angela comes upon the unconscious form of a sailor, a big handsome foreigner, who claims to have deserted his ship. Angela falls in love with him and they are married. A little later she hears of the death of her two brothers. How the strange or proves to be an enemy of Angela's remains, and how Angela sacrifices everything in order to protect not only her neighbors but her enemies, is presented in a series of startling and gripping situations, which naturally must be seen to be appreciated.

Miss Pickford has surrounded herself with a splendid cast, the majority of the principal players having been selected by Miss Pickford and Miss Marion, her director, while in Europe, where many of the properties were also secured.

The production is lavish in its settings and the wonderful photography is credited to Charles Brasher, who has photographed most of Miss Pickford's recent pictures. Stephen Goosson, noted art director, is responsible for the reproduction of the Italian village and beautiful interiors.

KENTUCKIANS INTERESTED VISITORS AT THE BEACH

R. O. Bradford and wife of Louisville, Ky., are here for the winter and have a cottage at 225 Peninsula drive. Mr. Bradford says Louisville is in good shape financially and is growing very rapid industrially. So far as he knows the financial depression that is seriously affecting some sections of the North have not reached the Kentucky metropolis. Mr. Bradford says that while Judge Bingham, who headed the widow of the late Henry M. Flagler, is doing quite well with the Louisville Courier Journal and has closed the advertising sales material for information the paper does not compare with what it was with the late owner Henry Flagler, of the paper. It is generally expected that R. O. Bradford will be a member at the Harding pageant. While it is not agreed with him personally, he would not be surprised and has a magnificent home there. There is no question as to his ability, both as a business man and a politician.

Mr. and Mrs. J. H. Smith, of Louisville, Ky., are here for the winter and are located at 115 Halifax avenue.

Forrest Lake and the Entire
State Road Department Board
Resigns; Appoint New Board

The resignation of Governor Forrest Lake and the entire State Road Department Board, which was announced today, is a significant event in the history of the state. The board, which was created by the legislature in 1917, has been responsible for the construction and maintenance of the state's roads. The resignation of the board is a result of a long and bitter struggle between the board and the legislature over the issue of road funding.

The board's resignation is a blow to the state's road program. The board has been responsible for the construction of many of the state's most important roads. The resignation of the board will result in the loss of the board's expertise and experience. The legislature will have to appoint a new board, which will have to start from scratch. This will result in a delay in the construction of the state's roads.

Forrest Lake and the Entire State Road Department Board Resigns; Appoint New Board

The resignation of Chairman Forrest Lake, of the state road department, which has been handed to Governor Hardee, to take effect tomorrow, is a matter of deep regret to his many friends in this locality, where Mr. Lake has shown exceptional ability in the management of the road matters which are contentious at this time, and on whom hangs the success or failure of the completion of the short cut of four miles on the Dixie Highway at the north end of Volusia county.

The former Volusia county board of commissioners gave a contract for the construction of the short stretch in this county on the new route, while the new incoming board held it up, stating that they would continue the work only on the personal assurance of Chairman Lake that the state would furnish \$6,000 for this work in Volusia and would guarantee that Flagler county would complete her portion of the road.

In conversation with the chairman Thursday, by phone, Secretary S. B. Crosby of the local Chamber of Commerce was assured by Mr. Lake that he would see that all agreements made by him in regard to this much sought roadway would be carried out. If this is done, the road is assured. If not, the much discussed short cut will again be delayed.

The entire road department board resigned this week, and an entirely new board has been appointed, which is as follows:

J. D. Smith, of Marianna, recently removed by Ex-Governor Catts, was reinstated as member representing the third congressional district, thus automatically removing H. V. Maudsl, of Tallahassee, appointed by the former governor to succeed Mr. Smith. The other new members are:

H. W. Clark, of Wall Springs, Hillsborough county, to represent the first congressional district.

Capt. W. J. Hillman, of Live Oak, to represent the second congressional district.

I. E. Schilling, of Miami, to represent the fourth congressional district.

Junius H. B. Phillips, of Jacksonville, to represent the state at large.

The appointment of Captain Hillman and the reinstatement of J. D. Smith insures the department in having two men who have had several years' experience as members. Formerly Captain Hillman was appointed as a member when the department was organized in 1915 and served four years, retiring in 1919 and was succeeded by L. C. Reister, of Jasper, who served one year and gave way to W. A. Holt, of White Springs, who was removed and A. J. Johnson, of Perry, appointed. Mr. Smith was secretary of the department from the time of its creation until the reorganization under the act of the 1919 session of the legislature.

The personnel of the retiring board is: Forrest Lake, of Sanford, chairman; C. A. Tutwiler, of Jacksonville; A. J. Johnson, of Perry; H. V. Maudsl, of Tallahassee; and H. V. Maudsl, of Tallahassee.

Chairman Lake's resignation was received by the governor and becomes effective January 15. In his letter of resignation Mr. Lake states:

"When the position of chairman and member of the state road department was tendered me, I was moved to accept the honor because I realize the great importance to the state of an aggressive, practical and business-like administration of the affairs of the highway department and I was particularly anxious to secure the state in that capacity. Since I have been connected with the department, however, I find that the duties of my position take up so much more of my time than I anticipated that I will be compelled to either sever my relations with the board or give up entirely my personal business. This is a sacrifice that I do not feel justified in making. I therefore, tender herewith my resignation as chairman and member of the state road department, to take effect January 15, 1921.

"Please permit me to say in this connection that I am grateful to you for the many courtesies which you have extended to me and wish that

your administration may be as successful as the citizens of Florida everywhere believe it will be."

Mr. Stevenson, in his letter of resignation, which bears date of January 7, says: "In a spirit of sincere co-operation with you and your administration and feeling that the work of the state road department might be further advanced by the appointment of another, I hereby tender by resignation as a member of the body, to become effective at your pleasure."

Mr. Tutwiler's resignation has been in the hands of the governor since January 5, and was today formally accepted.

The resignation of Mr. Johnson likewise bears date of January 5, and is simply a formal letter of resignation without stating any reasons therefor.

The formal order of reinstatement of J. D. Smith, of Marianna, filed in the office of secretary of state, recites the suspension of Mr. Smith and states that: "Whereas, it appears that said suspension was unauthorized in fact, it is therefore ordered and considered that said order of suspension of the said J. D. Smith, made at that time, be and the same is hereby revoked. It is further ordered that the said J. D. Smith be and he is hereby reinstated to membership on said state road department effective instantly." The order bears date today.

Marys Rodgers, of New York, president of the Green Book Road Guide company, was a guest of the breakfast yesterday. He was there to a movement to put to rest a lot of southern people North next summer. He is in touch with M. M. Smith of Orlando, president of the Florida Automobile association, who desires to arrange for a personally conducted automobile trip to the North. He says Mr. Smith assures him that at least 50 families that are connected with his association would gladly take advantage of such a tour.

BOIES DENIES IT!

"THOUGHT NOT IT" SAYS PENNSYLVANIA BOSS

(Newspaper Enterprise Association.) WASHINGTON, Jan. 14.—Has Boies Penrose lost his pep, his pull and his punch?

Boies says he hasn't that he's getting stronger physically and politically every day.

Close observers of political situations say Boies is through; that his recent illness sapped his vigor and his prestige as well.

They point to his change of front on the emergency tariff bill.

When Penrose arrived in Washington, Dec. 29 he said the bill wouldn't do, no, never!

But western and southern senators, Republicans and Democrats alike, care a hang whether Boies was for it or against it.

The bill grew in strength.

Then Boies said he was for it.

Many who have followed Penrose's career believe he realizes that he has lost a great deal of his former political aggressiveness and that he will now try to achieve his ends by quiet strategy.

A GREAT AND WISE MAN ONCE SAID:

ADVERTISING is the education of the public as to who you are, where you are, and what you have to offer in the way of skill, talent or commodity. The only person who should not advertise is the one who has nothing to offer the world in the way of merchandise or service.

Let The Daily News carry a message into the homes of the Triple Cities for you.
